Subject: Brandon Stadium Coventry

Dear Mrs Buchanan

Please accept this email in the support of the Coventry Speedway Stadium in Brandon being kept as a Speedway Stadium and not sold as land to build houses on.

The Brandon Stadium has a long history as far back as 1928, as one of the best stadium and tracks that this country has ever produced, and it is currently a very sad situation that speedway is no longer being held at such a great venue.

The sport of speedway prides itself on being a family sport, and in my many visits to Brandon over the years, many many families have visited the speedway their and had such wonderful evenings.

It would be devastating to not only the people of Coventry and Rugby, but to the whole sport of speedway if the venue was lost to the sport permanently, and again I would request the support of Rugby Council to help get this fantastic venue back up running again as the Home of Speedway for the British Public.

If you need anymore information from myself as the Co Ordinator of the Speedway Control Bureau who are the governing body of Speedway in the UK, then please feel free to get in touch.

Kind Regards

Neil Vatcher
