Dear Erica and Mandy,

On behalf of Wolston Parish Council I have been asked by Councillors to inform you that the Parish Council support the comments details in the attached letter from Wolston Primary School. The School has suffered recently from a number of new developments being built, and many residents from Binley Woods do send their children to this Church of England School in Wolston.

It should also be noted that when Wolston High School closed and the Wolston Leisure and Community Centre (WLCC) was built on the land, it was specified that the WLCC for was the use of Wolston and surrounding villages – specifically including Binley Woods and Brandon. As well as gym facilities, the WLCC holds a youth club, and has rooms that are hired by clubs, groups and societies (including slimming groups, keep fit groups, martial arts etc) which are also used by local villages, and so the WLCC may also benefit from S106.

Kind Regards

**Maria**

Dear Maria,  
Could you circulate this e-mail (and its attachment) to the P.C. before tomorrow night's meeting, please?  
Many Thanks  
David Cross

Dear All,  
A learning point from the recent Bloor Homes / S106 monies / Wolston St Margaret's School negotiations, was to submit applications and requests into R.B.C. / W.C.C asap. Following the Brandon Stadium Application and the fact that the Stadium Housing Development is in St Margaret's Catchment Area, the Governors on the Resource Committee have issued the attached Letter. Could you please read the attached letter? To be honest, I am not overly optimistic of success for reasons that we can discuss in "Delegates Report" tomorrow night, but I have suggested that it may add slightly more weight if the P.C. add their approval. March 1<sup>st</sup> is the deadline for submission, but if after discussion tomorrow night, my suggestion is approved, we could send ASAP?  
Many Thanks  
David Cross
