

**Wolvey Site Allocations Development Pack**

**Addendum following Parish Council consultation in June 2016**

## Summary of Addendum

The original Wolvey Site Allocation Development Pack (June 2016) contained analysis of eight sites adjacent or in close proximity to the settlement boundary.

This addendum includes a slight revision to the site boundary of one of these sites (S14/011). At the time of consultation with Wolvey Parish Council, RBC were awaiting confirmation from the site promoter that legal agreements had been reached with adjacent landowners of residential garden land. This issue was discussed in consultation with the Parish Council / Neighbourhood Development Plan Group however the original plan measuring 0.3 hectares was used in the original development pack. The plan below now shows the revised site area of 0.6 hectares including three residential gardens to the east of the original site S14/011.
